

Hearing Problems Treated - HEAR!

Ask your doctor if you have...

- #10 Trouble hearing over the phone
- #9 Trouble following multiple conversations
- #8 To often turn the TV volume up
- #7 Difficulty understanding the speech of women and children
- #6 To often ask people ask people to repeat themselves 'again and again'
- #5 Trouble understanding speech and often misunderstand people
- #4 Annoyed others because of an inappropriate response
- #3 To strain to hear in background noise
- #2 Trouble hearing child or grandchild cry for help
- #1 Stopped being social and feelings of missing out on the world

Any one of these means you may have a treatable medical disorder. Schedule your appointment today!

Jeffrey S. Weingarten, MD
C. Bart Dickson, MD
Michael E. Stone, MD
